

New Features Came with v6.0

ABP Framework

- LeptonX is now the default theme for startup templates
- New .NET MAUI startup template

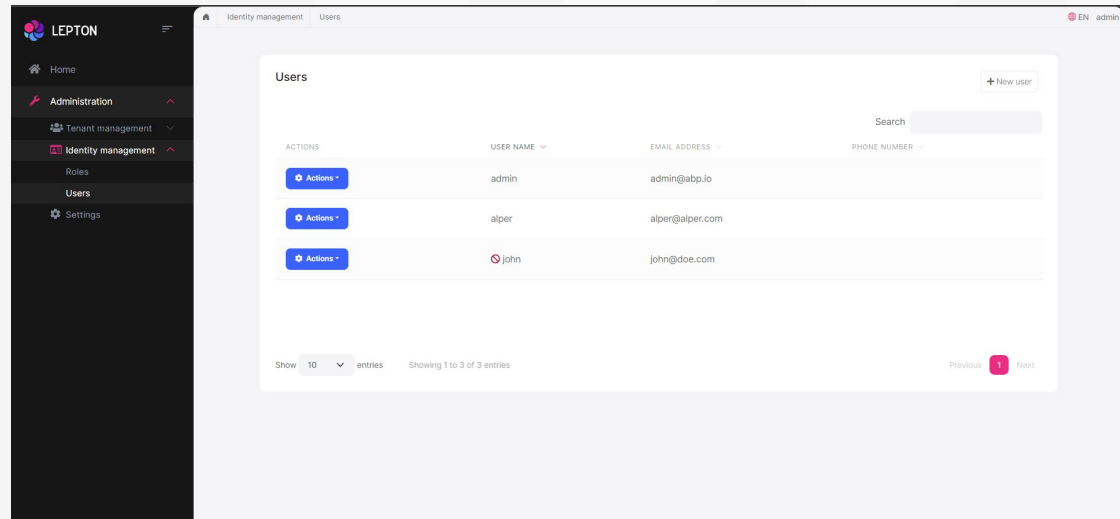

ABP Commercial

- New .NET MAUI mobile application
- GDPR module: Cookie consent

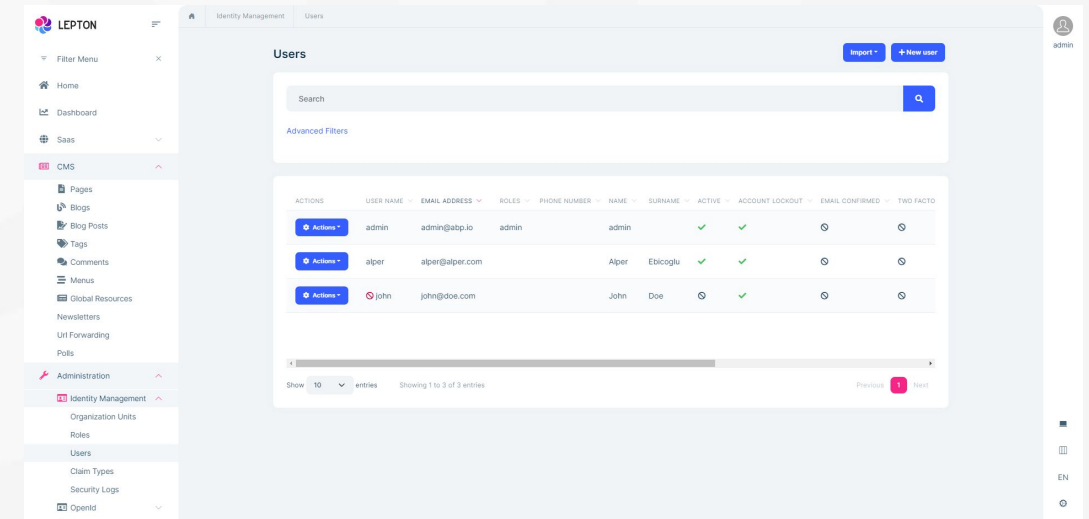

To see other features, please read [the v6.0 blog post](#).

LeptonX Theme on Startup Templates

LeptonX Lite Theme

LeptonX Theme

Theme Selection via ABP CLI

You can specify the theme by using the **--theme** option while creating an application with ABP CLI as below:

```
abp new Acme.BookStore --theme <theme-name>
```

- For free templates, **LeptonX Lite Theme**(default) and **Basic Theme** are the options.

```
abp new Acme.BookStore -t app --theme basic
```

- For pro templates, **LeptonX Theme**(default), **Lepton Theme** and **Basic Theme** are the options.

```
abp new Acme.BookStore --theme lepton
```

Theme Selection on Get Started Page

Create New Project

This wizard creates a new project from the startup template which is properly configured to jump start your project.

Need Help?

[Read The Documentation](#)

- › [Getting Started Tutorial](#)
- › [Application Development Tutorial](#)
- › [The Startup Template](#)
- › [ABP CLI Documentation](#)

Give your project a name

Project name

You can use different levels of namespaces; e.g. BookStore, Acme.BookStore or Acme.Retail.BookStore.

Select Project Type

[Application](#) **[Application \(single layer\)](#)** [Module](#)

Creates a single-layer web application. Recommended for building an application with a simpler and easy to understand architecture.

Select UI Framework

[MVC](#) [Angular](#) [Blazor Server](#)

Select Database Provider

[Entity Framework Core](#) **[Mongo DB](#)**

☒ [Preview](#)

Uses the latest pre-release version (6.0.0-rc.2).

Select UI Theme

LeptonX Lite Theme

A modern and stylish Bootstrap UI theme. Ideal if you want to have a production ready UI theme. This is the newest theme and is the default. See [documentation](#).

 [See the screenshot](#)

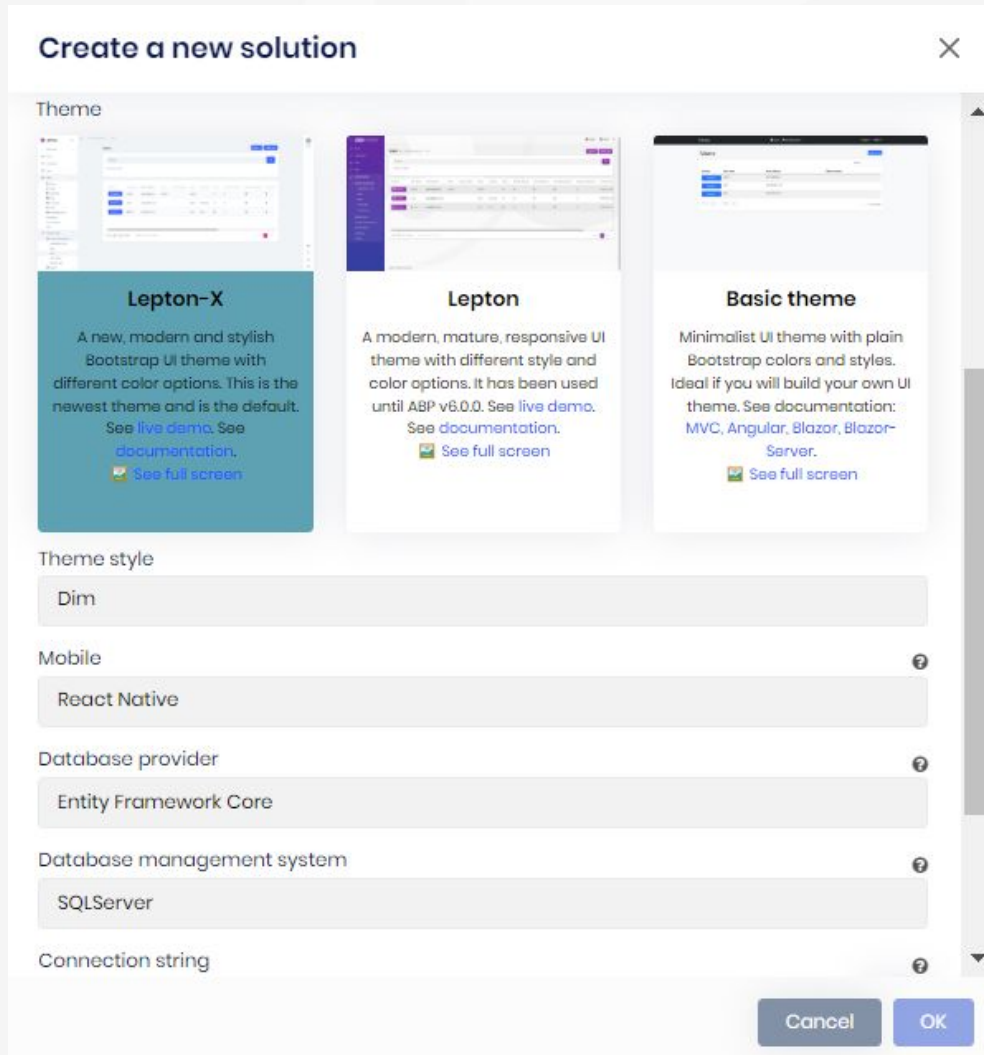

Basic Theme

Minimalist UI theme with plain Bootstrap colors and styles. Ideal if you will build your own UI theme. See [documentation](#).

 [See the screenshot](#)

Theme Selection via ABP Suite

The screenshot shows the 'Create a new solution' dialog box in ABP Suite. It features a 'Theme' section with three options: Lepton-X, Lepton, and Basic theme. Below this, there are dropdown menus for 'Theme style' (set to Dim), 'Mobile' (set to React Native), 'Database provider' (set to Entity Framework Core), 'Database management system' (set to SQLServer), and 'Connection string'. At the bottom, there are 'Cancel' and 'OK' buttons.

Create a new solution

Theme

Lepton-X
A new, modern and stylish Bootstrap UI theme with different color options. This is the newest theme and is the default. See [live demo](#). See [documentation](#). See [full screen](#).

Lepton
A modern, mature, responsive UI theme with different style and color options. It has been used until ABP v6.0.0. See [live demo](#). See [documentation](#). See [full screen](#).

Basic theme
Minimalist UI theme with plain Bootstrap colors and styles. Ideal if you will build your own UI theme. See [documentation](#): MVC, Angular, Blazor, Blazor-Server. See [full screen](#).

Theme style
Dim

Mobile
React Native

Database provider
Entity Framework Core

Database management system
SQLServer

Connection string

Cancel OK

You can also select a theme while creating a project from ABP Suite. You can select **LeptonX Theme**(default), **Lepton Theme** or **Basic Theme** as the theme of the application.

If you select the **LeptonX Theme**, you can also choose the theme style. **System**, **Dim**, **Light** and **Dark** are the options for theme style.

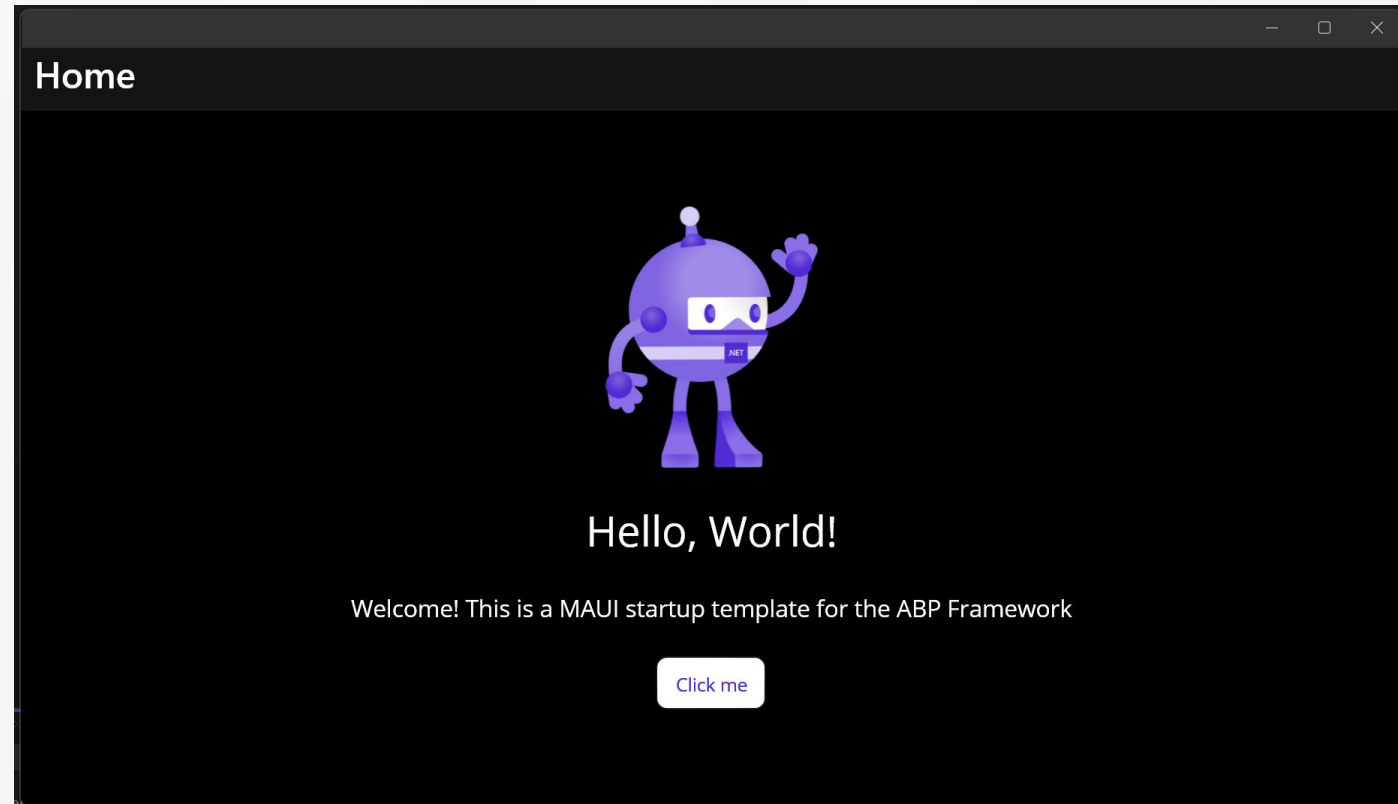

DEMO

.NET MAUI Startup Template

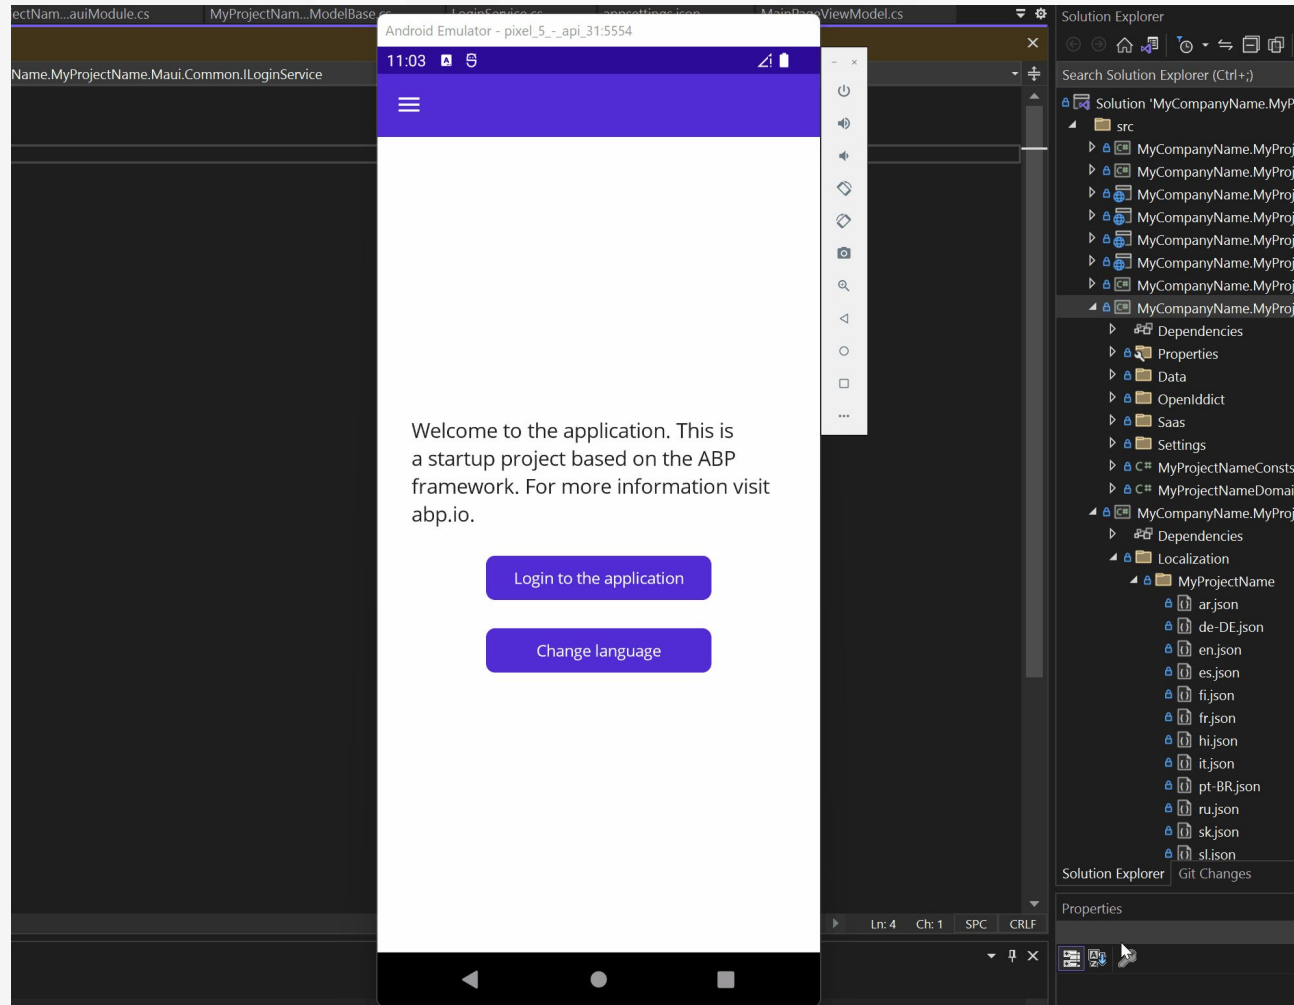

You can create a new .NET MAUI project with the command below:

```
abp new Acme.BookStore -t maui
```

You can read the [MAUI Application Startup Template](#) documentation for more info.

.NET MAUI Mobile Application

To create a new Application Startup Template with the .NET MAUI mobile application, use the command below:

```
abp new Acme.BookStore -t app-pro --mobile maui
```

GDPR Module: Cookie Consent

<https://docs.abp.io/en/commercial/6.0/modules/gdpr#cookie-consent>

The screenshot displays the Lepton application interface. The top navigation bar includes the Lepton logo, a filter menu, and a home button. The main content area shows a welcome message and a login button. A sidebar on the right contains a login link and a language selector set to 'EN'. At the bottom, a blue banner contains a cookie consent message: 'This website uses cookies to ensure you get the best experience on the website. If you continue to browse, then you agree to our [Cookie Policy](#) and [Privacy Policy](#).' with an 'Accept' button.

Accept

GDPR Module: Cookie Consent

Cookie Policy and **Privacy Policy** pages have been added to the template to provide users a general content for these policies.

You can see the content of these pages and change the content or url of these pages by your needs.

You can directly delete these pages if you don't need them.

GDPR Module: Cookie Consent

- If you want to disable/hide the Cookie Consent, you can simply open your module class and set the **IsEnabled** property as **false**:

```
context.Services.AddAbpCookieConsent(options =>
{
    options.IsEnabled = false; //disabled
    options.CookiePolicyUrl = "/CookiePolicy";
    options.PrivacyPolicyUrl = "/PrivacyPolicy";
});
```
